## **Configuration & Deployment Services**

# If “technology deployment” isn’t in your mission statement, why not leave it to us?

Installing and deploying an arsenal of hardware can be overwhelming to your large enterprise – unless you leave it to Ashaford Technical Solutions. We’ll handle everything from logistics to installation to data migration to data-secure decommissioning. So you and your IT staff can focus on getting the most out of your technology tools.

Our Configuration Services can help remove the complexity and frustration associated with deploying new equipment. Ashaford Technical Solutions Configuration experts can install hardware components and software to ensure your systems are pre-configured and ready to go. You avoid excessive downtime in deploying new systems and can eliminate the risks and unnecessary complexity associated with supporting nonstandard configurations in your environment.

## Ashaford Technical Solutions Configuration Services Ready to go, out of the box

Our Configuration Services Maximize uptime, increase efficiency and ensure consistency

Today's workforce is exceptionally distributed and mobile. Maintaining a consistent IT environment under these conditions has never been more challenging. Whether you're adding new equipment to a data centre or migrating end users to the newest platforms, upgrading can be a daunting task. Your end users and IT staff can avoid excessive downtime due to system deployment as well as the spread of rogue hardware and software throughout your environment. With Ashaford Technical Solutions Configuration Services, your company receives fully functional systems delivered ready for use by end users or for installation in your data centre.

Imagine if your employees could open the box, and  
get right to work, Imagine if your employees could  
open the box, and get right to work
