## Fully Managed Solutions Matched to Your Needs

When high performance and security matter most — choose single tenant dedicated servers backed by 24/7/365 responsive technical Support.

### Delivered Fast

When you need to get online fast, we make that happen with our standard server options.

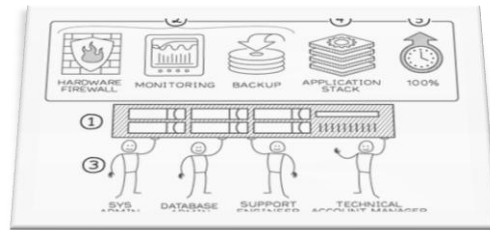

### Customized

For your most demanding workloads, let our architects create a customized solution built on dedicated servers, storage, networking and managed services.

Single Processor		Dual Processor		Quad Processor	
Starting at	\$499/mo*	Starting at	\$649/mo	Starting at	\$879/mo
32GB Single Processor Hex Core Dedicated Server		64GB Dual Processor Hex Core Dedicated Server		128GB Quad Processor Octa Core Dedicated Server	
32GB RAM (Up to 384GB)		64GB RAM (Up to 768GB)		128GB RAM (Up to 1,536GB)

## Every Managed Dedicated Server Includes:

1. The unmatched performance of a bare metal server.
2. Enhanced security with a managed dedicated hardware firewall, backup, and monitoring.
3. A 24/7/365 Support Team.
4. A managed web application stack and proactive security patches.
5. Our industry-leading Managed SLA, including a 100% Network Uptime guarantee.

### Three Benefits of Dedicated Servers

#### Security and Control

Single-tenant infrastructure provides higher levels of security and control, to help you address your security and compliance requirements.

#### High Performance Compute

Support your most demanding applications with up to 72 Intel® processor cores, 12TB of local SSD capacity and 3TB of RAM per server.

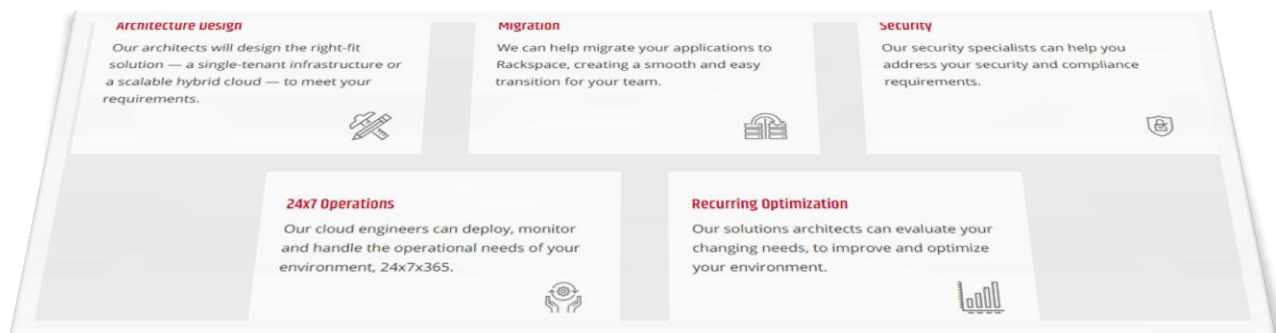

#### Cloud-ready and Scalable

Combine dedicated servers with the private or public cloud of your choice, including AWS, Microsoft® Azure®, VMware, OpenStack

## We Address Critical Needs

Lean on us for architecture design, migration, security guidance, plus 24/7/365 operations and optimization. We're here for you, and chances are that whatever you want to do with your cloud, we've already done it.
