WHY LEASE FROM US

We are a locally owned and operated company with a global outlook on business IT operations.

Our Mission

Our mission is to provide every business with the right technical solutions for their IT operations at a low monthly cost, typically saving our clients between 27% and 70% of their overall IT spending budget. We achieve this by:

- Reducing your business's electricity cost through consolidation & virtualization.
- Saving you money by eliminating the need to hire in-house technical personnel.
- Eliminating the high cost of purchasing, securing and supporting your tech equipments.
- Reducing and in some cases totally eliminating the possibility of downtime, which could cost your business not just financially but also your business's reputation.
- Lower your business's overall TCO by utilizing our equipments instead of buying.

Our integrity is crucial to our business. Ashaford Technical Solutions is committed to high standards of professional conduct, and to ethical and fair business dealings with our employees, stakeholders, and third parties.

Why Rent Networking Equipments from Us

Rental equipment offers a cost-effective solution for companies that not only need computer networking equipments but also require the peace of mind that comes with 24/7/365 monitoring and responsive support. Our customers rent networking equipment for a number of reasons including but limited to:

- Setting up training environments
- Perform testing

- Planning for Disaster Recovery & Business Continuity
- Managing corporate relocation
- And, providing the infrastructure needed for events.

Renting networking equipment can also help you meet immediate technology needs and keep critical projects on track. Available hardware includes but not limited to:

- Computers
- Servers & Storage Systems
- Printers and Scanners
- Desktop computers
- IP Telephony
- Firewalls, Routers and switches.

Tip: Did you know that certain equipment rentals are actually tax deductible? Speak to your accountant.

There are many advantages to renting your computer and network equipments from us such as conserving capital, tax advantages, and lower payments than having to put up the complete cost upfront for your IT Infrastructure's implementation.
