Dedicated Hosting, Managed IT Services, Cyber Security & Unified Threat Management, Cloud Services, Disaster Recovery & Business Continuity, Enterprise Storage, Unified Communications, and Core IT Equipment Rental.

## Who are we

Ashaford Technical Solutions is a **(MSP)** – Managed IT Services Provider, **(MSSP)** – Managed Security Services Provider and **Dedicated Hosting Solutions Provider** for organizations that demand (HA) High Availability and guaranteed uptime throughout Jamaica, the Caribbean and Latin America.

We know that it takes a wide variety of specialized engineering skills to architect and manage not only the infrastructure, but also the many complex tools and applications that run on top of it, for this reason our experts are available to all our customers 24/7/365.

We back our solutions with an industry-leading 99.999% Network Uptime Guarantee. Our approach is designed to keep you up and running fast and lean—so you can focus on hiring only the engineers who will differentiate your business.

**Everything we offer is fully managed, That's because we believe:**

- Uptime and redundancy are shared responsibilities, rather than a burden for the customer alone.
- Economies of scale are nice—but economies of expertise are even more valuable. The highest performance and cost-efficiency come when you combine infrastructure with specialized expertise and the exceptional customer service that we call heroic and responsive technical Support.
- Every customer should have easy access to engineers—by phone, chat, or email, 24/7/365—to help with planning, architecting, building, and operations.

### We Manage Your Infrastructure, So You Can Manage Your Business

Ashaford Technical Solutions includes, by default, 24/7/365 technical support and monitoring with all our offerings,

**with other providers, that's your responsibility. But we do things differently at Ashaford Technical Solutions.**
